

Resolution of the Champaign County Democratic Central Committee

Urging a NO Vote on the At-Large Ballot Question in Urbana this November

WHEREAS the Democratic Party has long fought for the protection of voting rights for racial and ethnic minorities;¹

WHEREAS the Supreme Court of the United States has found that “at-large voting schemes tend to minimize the voting strength of minority groups by permitting the political majority to elect all representatives of the district;”²

WHEREAS major studies and researchers in the field have found the notion that at-large elections dilute minority representation to be “among the best verified empirical generalizations in political science;”³

WHEREAS the Democratic Party believes that at-large elections threaten to dilute the one-person, one-vote principle; that full and equal access to elective office should be assured for women and minorities; and that domination and distortion of our elections by moneyed interests should be minimized;⁴

NOW THEREFORE, BE IT RESOLVED that the Champaign County Democratic Central Committee supports the voting rights of all residents in Urbana and their entitlement to equitable representation in government;

BE IT FURTHER RESOLVED that the Champaign County Democratic Central Committee recognizes the likelihood that the addition of at-large seats to the Urbana City Council will dilute minority representation on that body, and will draw those seats into a contest decided by financial contributions instead of individual merit;

BE IT FURTHER RESOLVED that the Champaign County Democratic Central Committee will encourage Democrats in Urbana to vote “no” on the at-large ballot question.
