# Let's Not turn Back the Clock
# Vote NO At-Large
# for Urbana City Council

**Communities throughout the nation have eliminated at-large elections and switched to voting by district or ward. Examples in Illinois include Danville and Springfield city councils, the Cook County Board, and the Urbana School Board.**

- **Election by wards provides the most direct representation.**
- **Election by wards prevents big money interests from buying council seats.**
- **Election by wards is consistent with the spirit of the Voting Rights Act of 1965 and prevents diluting minority votes in city elections.**

**By signing below, I give my permission to the "Vote NO At Large" campaign to use my name on this public statement urging a "no" vote on the at-large referendum on the November 2 ballot.**
