

The Future is for Everyone

The Path to a Positive AI Future

We are fortunate [REDACTED]
[REDACTED] to use superintelligence [REDACTED]
[REDACTED]
[REDACTED]
[REDACTED] it is important to develop a
philosophy for [REDACTED] superintelligence [REDACTED]
[REDACTED]

[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]

We propose a philosophy based on [REDACTED]
[REDACTED] prosperity, [REDACTED] superintelligence, and
[REDACTED] power [REDACTED]

[REDACTED]
Superintelligence will be [REDACTED] the most [REDACTED]
[REDACTED]
[REDACTED]

[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]

extreme concentration of power [REDACTED]

[REDACTED] an absolute power [REDACTED]

[REDACTED]
[REDACTED]
[REDACTED] We
believe [REDACTED] AI [REDACTED]

[REDACTED] free enterprise, and [REDACTED]
[REDACTED]

[REDACTED] power [REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED] We believe [REDACTED]
[REDACTED] more [REDACTED] more
[REDACTED] not less.

[REDACTED] automation [REDACTED] will be the greatest contribution of
superintelligence. [REDACTED] AI [REDACTED]

[REDACTED] will [REDACTED] discover new [REDACTED]
[REDACTED] new [REDACTED] new
[REDACTED]
[REDACTED] superintelligence
[REDACTED] is unlimited.

[REDACTED] the most important question will be
[REDACTED] superintelligence itself [REDACTED]

[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]

We believe [REDACTED] superintelligence [REDACTED] is the way to
[REDACTED] power [REDACTED]
[REDACTED]
[REDACTED] superintelligence [REDACTED]
[REDACTED] has the potential to begin
a new era of [REDACTED]
[REDACTED] new [REDACTED]
[REDACTED] more than ever before.

To make this more tangible [REDACTED]
[REDACTED]:

- Everyone will have an [REDACTED] agent [REDACTED]
[REDACTED] you [REDACTED]
will work 24/7 [REDACTED]
[REDACTED] more [REDACTED]
[REDACTED] more [REDACTED]
[REDACTED] you can trust
it to handle all of your personal content [REDACTED]
[REDACTED]

You'll be able to interact with your agent through [REDACTED]
your glasses to keep you present in the moment with the people you care
about.

[REDACTED] my agent [REDACTED] helps me
[REDACTED] by monitoring [REDACTED] and [REDACTED]
watching [REDACTED]
[REDACTED]
[REDACTED]

- Everyone will have [REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
augmented reality glasses [REDACTED]
[REDACTED]
[REDACTED]

- Everyone will [REDACTED]
[REDACTED] become more [REDACTED]
[REDACTED]
[REDACTED] Many [REDACTED]
[REDACTED] many more [REDACTED]
[REDACTED] much greater [REDACTED]
growth, [REDACTED] more [REDACTED] rather than less.

- Everyone will have [REDACTED]
[REDACTED] unlimited [REDACTED] anything you want.
[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

- Everyone will [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] new [REDACTED] new [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

- [REDACTED]

to be part of the future, everyone must [REDACTED] use
superintelligence [REDACTED]

[REDACTED]

[REDACTED] pay to use more compute [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] Meta is focused on [REDACTED]
[REDACTED] the values of [REDACTED] a
future [REDACTED] world [REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED] created by
[REDACTED] us and a reflection of [REDACTED] our values and perspectives.

[REDACTED]

[REDACTED] we are focused on [REDACTED]
job displacement and [REDACTED] data center
builds, [REDACTED] AI [REDACTED]
[REDACTED] tyranny and surveillance, [REDACTED]
[REDACTED]
[REDACTED] control over superintelligence [REDACTED]
[REDACTED]

[REDACTED] these concerns are about technology [REDACTED]
[REDACTED] we can perfect [REDACTED] the technology to
produce a [REDACTED] superintelligence. [REDACTED]
[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] if the power of superintelligence is [REDACTED]
[REDACTED] AI itself, then [REDACTED]
[REDACTED]
[REDACTED] power [REDACTED] is [REDACTED]
[REDACTED] superintelligence.

[REDACTED] the key [REDACTED] is [REDACTED]
[REDACTED] power that favors [REDACTED]
superintelligence [REDACTED]

Meta is [REDACTED] focused on [REDACTED]
superintelligence [REDACTED] building AI
for [REDACTED]
[REDACTED] power [REDACTED]
Meta's mission [REDACTED] has focused on [REDACTED] power [REDACTED]
[REDACTED]
[REDACTED]

Let's consider each of the [REDACTED] above in more detail:

Protecting [REDACTED] Government Tyranny

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

To maintain freedom, we must ensure [REDACTED] superintelligence [REDACTED]

Ensuring American Leadership

[REDACTED] AI will
contribute to a new [REDACTED] power that will determine [REDACTED]
[REDACTED] the future. [REDACTED]

[REDACTED] we must ensure [REDACTED] AI
systems [REDACTED] grow [REDACTED]

highlights how [REDACTED]
important it is to [REDACTED] accelerate [REDACTED]
[REDACTED]

[REDACTED] America [REDACTED]
[REDACTED]
[REDACTED]
[REDACTED] will need to
accelerate [REDACTED]
[REDACTED]
[REDACTED]

[REDACTED]

Any policy that slows American model releases [REDACTED] could add significant risk [REDACTED]

[REDACTED]
[REDACTED] Restricting [REDACTED]
[REDACTED] will reduce [REDACTED]

Alignment With [REDACTED] Existential Risk

The ultimate question of [REDACTED] power is [REDACTED]
power and control over AI itself. [REDACTED] AI [REDACTED]
power [REDACTED] no longer serves humanity's
interests and [REDACTED] puts humanity in peril.

[REDACTED] power is [REDACTED]
[REDACTED] superintelligence, [REDACTED]
[REDACTED] aligned to [REDACTED]
[REDACTED] the ways our [REDACTED] economy
behaves. [REDACTED]

[REDACTED]
[REDACTED]

[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]

[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]

[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]

[REDACTED]
[REDACTED]
[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] if [REDACTED]

[REDACTED] billions of people are using [REDACTED]

superintelligence [REDACTED] then we will have solved alignment [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] alignment isn't [REDACTED] technology that can keep [REDACTED]

[REDACTED] superintelligence benevolent [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] Control of Superintelligence

[REDACTED] once AI systems can autonomously improve

[REDACTED] let [REDACTED] AI [REDACTED]

[REDACTED] compute [REDACTED]

[REDACTED]

[REDACTED] compute [REDACTED]

[REDACTED] 100x or more [REDACTED]

[REDACTED] AI [REDACTED] compute

[REDACTED] command more [REDACTED] compute and [REDACTED]

[REDACTED] power [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

To ensure [REDACTED] control, [REDACTED]

[REDACTED]

[REDACTED] Meta [REDACTED]

[REDACTED] must [REDACTED] build out a [REDACTED] large
amount of compute [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] letting an AI [REDACTED]

[REDACTED] direct its own goals is not inherently harmful [REDACTED]

[REDACTED] as long as we maintain [REDACTED]

power [REDACTED]

power [REDACTED] the only way [REDACTED]

[REDACTED] more power.

This philosophy of [REDACTED]

• [REDACTED]

[REDACTED] it is in my, Meta's, or the world's best interests for me [REDACTED] to be a sole decision-maker [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] Meta is a founder-controlled company, [REDACTED] CEOs [REDACTED] have extensive authority [REDACTED]

[REDACTED]

[REDACTED]

- [REDACTED]

[REDACTED]

[REDACTED] we should encourage close cooperation between frontier labs and the government. [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] the American AI industry [REDACTED] should accelerate [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] not slow down [REDACTED]

[REDACTED] superintelligence [REDACTED]

[REDACTED] power [REDACTED]

[REDACTED]

[REDACTED] superintelligence will be [REDACTED] most profound [REDACTED]

[REDACTED]

[REDACTED] it is increasingly important to have a [REDACTED]

philosophy and values for [REDACTED] superintelligence [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] power [REDACTED]

[REDACTED]

[REDACTED] I am optimistic that [REDACTED]
[REDACTED] The arc of human civilization
has bent towards [REDACTED] more power [REDACTED]
[REDACTED] Superintelligence holds the
promise of [REDACTED] that power [REDACTED]
[REDACTED]
